PROFILE

As a recent graduate in Computer Science and a Full Stack Developer intern at Luminar Technolab, I am fervently passionate about creating dynamic and user-friendly websites. My skills are deeply rooted in the MERN stack, and I am committed to expanding my proficiency in web development by embracing new technologies and techniques. My ultimate goal is to become a versatile web developer contributing effectively to various projects and organizations.

JavaScript • ExpressJS • Python

PROFESSIONAL EXPERIENCE

Luminar Technolab

Full Stack Developer Intern

12/2022 – 07/2023 | Kochi, Kerala

- Developed web applications utilizing HTML, CSS, Bootstrap, JavaScript, React, and MongoDB.
- Stayed abreast of the latest technologies, software, and hardware for use in various projects.
- Successfully completed day-to-day duties with accuracy and efficiency.

PROJECTS

Promptopia

- Built a web application using Next.js 13 for discovering, creating, and sharing prompts for AI models like ChatGPT.
- Implemented server-side rendering and file-based routing in Next.js.
- Integrated user authentication, authorization, and deployed the application on Vercel.

Employee Management App

- Developed a feature-rich employee management application using React for the frontend.
- Implemented CRUD functionalities in Node.js with Express and MongoDB.
- Designed and implemented a RESTful API to facilitate data operations.

Banking Application

- Created a banking application enabling users to perform essential operations using Angular, ExpressJS, and MongoDB.
- Implemented CRUD functionality using RESTful API design principles.
- Utilized MongoDB for data integrity and created a responsive user interface.

British Voyager - E-Commerce Website

- Developed a comprehensive e-commerce website specializing in luggage and bags.
- Utilized Node.js and EJS for the backend to manage product information and user interactions.
- Integrated MongoDB as the database to store product details, user profiles, and order history.
- Implemented responsive user interfaces and secure authentication mechanisms.
